

Benjamin T. Gunden, PE, SE

Principal

11 Years with Ehlert Bryan | 12 Years of Experience

EXPERIENCE

Mr. Gunden has been with Ehlert Bryan since 2010. He has experience in the structural design and project management of a wide variety of new construction and renovation projects from conceptual design through construction. His project background includes multi-family residential, office buildings, fire stations, schools, retail centers, parking garages, and international facilities located in high-seismic regions. He has experience in the design, detailing, and project management of all major types of structural systems, including conventionally reinforced and post-tensioned concrete, structural steel, wood, masonry, epicore/versa-dek, light gage, and precast concrete. Ben has designed and managed several award-winning projects during his tenure at Ehlert Bryan.
